

print release information

This card serves as a full release for all rights to print from your USB drive. You may print as much as you'd like, wherever you'd like.

You will find your master proof set files on this USB drive. The images are sized for standard printing up to 16" x 24".

Although you can print anywhere you'd like, I do suggest that you have a professional photo lab print the images to achieve optimum results in color display, paper quality, and proper dimension. Feel free to duplicate the images, use them on a website, post to social media, and even make copies of the drive for friends and family.
